

PAD INTERVENTIONAL MARKET ANALYSIS BASED ON TREATMENT WITH ANGIOPLASTY OR ATHERECTOMY

Index of Tables

Table 1: 2006 Inpatient Lower Limb Procedures Estimated by Type of Procedure and Vascular Territory.	10.
Table 2: 2006 Aortoiliac (Pelvic)* Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	12.
Table 3: 2006 Above Knee (Femoral Popliteal) Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	14.
Table 4: 2006 Below Knee (Tibial Peroneal) Revascularization Procedures Suitable for Treatment with Angioplasty or Atherectomy Categorized by Procedure Type.	16.
Table 5: 2006 Inpatient Amputation Categorized by Procedure Type.	18.
Table 6: 2006 Bare Metal Stent (BMS) & Drug-Eluting Stents (DES) in the Lower Limbs. Detailed Analysis by Vascular Territory.	19.
Table 7: 2006 Inpatient and Outpatient Endovascular Procedures By Vascular Territory (Primary Stents Only).	21.
Table 8: 2006 Summary of Endovascular Procedures Representing the Market for Treatment with Angioplasty or Atherectomy.	23.
Table 9: ICD-9 Procedure Code 39.50. Analysis of Angioplasty & Atherectomy Procedures	24.
Table 10: 2000-2020 Estimated Number of U.S. Citizens with PAD.	25.
Table 11: Assumptions Employed to Estimate U.S. PAD Market Potential for Revascularization Procedures By Disease Severity.	26.
Table 12: 2000-2020 U.S. PAD Revascularization Market Potential by Type of Procedure (Patients and Limbs).	29.
Table 13: Summary of Universal Assumptions Employed to Forecast Endovascular Market by Vascular Territory (Primary Stents).	30.
Table 14: Primary Stenting Assumptions Employed to Forecast Endovascular Market by Vascular Territory.	33.
Table 15: 2006-2020 Aortoiliac PTA and Stent Procedures. Primary Stenting Gains Share Rapidly.	35.

Table 16: 2006-2020 Aortoiliac PTA and Stent Procedures* Primary Stenting Gains Share Moderately	36.
Table 17: 2006-2020 Above Knee PTA and Stent Procedures. Primary Stenting Gains Share.	38.
Table 18: 2006-2020 Above Knee PTA and Stent Procedures. Primary Stenting Loses Share.	39.
Table 19: 2006-2020 Below Knee PTA and Stent Procedures. Primary Stenting Gains Share.	41.
Table 20: 2006-2020 Below Knee PTA and Stent Procedures. Primary Stenting Loses Share.	42.
Table 21: 2006 Inpatient Endovascular Procedures Including Provisional Stents.	47.

Index of Figures

Figure 1: Inpatient PAD Procedures 2006 and 2005. Comparison of Endovascular, Surgery and Amputation. (Primary Stents).	7.
Figure 2: Inpatient PAD Procedures 2006 and 1997. Comparison of Endovascular, Surgery and Amputation. (Primary Stents).	8.
Figure 3: 2006 Endovascular Market by Vascular Territory. (Primary Stents Only).	20.
Figure 4: 2006 Endovascular Procedures by Device Type and Territory. (Primary Stents Only).	22.
Figure 5: 2006 Inpatient and Outpatient Endovascular Market. (Primary Stents Only).	23.
Figure 6: 2006 Inpatient and Outpatient Revascularization Procedures by Type.	24.
Figure 7: 2000-2020 Projected Number of Endovascular and Surgical Procedures. Endovascular and Surgical Market Shares Remain Constant or Endovascular Gains Share from Surgical.	28.
Figure 8: Contribution of Primary Stenting in 2006 and 2020. Infrainguinal Stenting Increases versus Infrainguinal Stenting Declines.	34.
Figure 9: 2006-2020 Aortoiliac Angioplasty/Atherectomy and Primary Stent Procedures. Primary Stenting Gains Share Rapidly or Primary Stenting Gains Share Moderately.	37.
Figure 10: 2006-2020 Above Knee Angioplasty/Atherectomy and Primary Stent Procedures. Optimistic and Pessimistic Cases. Primary Stenting Gains Share or Primary Stenting Loses Share.	40.
Figure 11: 2006-2020 Below Knee Angioplasty/Atherectomy and Primary Stent Procedures. Optimistic and Pessimistic Cases. Primary Stenting Gains Share or Primary Stenting Loses Share.	43.
Figure 12: U.S. PAD Endovascular Market Comparison of Total Dollar Volume and Share by Device Type in 1997, 2003 and 2006.	44.
Figure 13: U.S. Angioplasty/Atherectomy Market. Contribution of New Atherectomy Devices 2003 and 2006.	45.
Figure 14: 2006 PAD Inpatient Endovascular Procedures by Type. Comparison of Market with Primary Stents and Market with Primary and Provisional Stents.	48.
Figure 15: 2006 PAD Revascularization Procedures by Type. Comparison of Market with Primary Stents and Market with Primary and Provisional Stents.	49.
