

**BELOW-THE-ANKLE DISEASE IN PERIPHERAL ARTERY DISEASE:  
CHARACTERISTICS, CONSEQUENCES AND PREVALENCE.  
REVIEW OF ENDOVASCULAR REVASCULARIZATION**

## INDEX OF TABLES

Table 1 Below-the Ankle-Disease Patient Demographics and Comorbidities	9.
Table 2 Risk Factors and Odds Ratios for Below-the-Ankle Disease in Critical Limb Ischemia (R 4-6)	11.
Table 3 Below-the-Ankle Atherosclerotic Disease Definitions Employed in the Literature	12.
Table 4 Critical Limb Ischemia Patients Prevalence of Below-the-Ankle Disease in the Literature	14.
Table 5 Critical Limb Ischemia Patients with Ischemic Diabetic Foot Ulcers Prevalence of Below-the-Ankle Disease in the Literature	15.
Table 6 Intermittent Claudication Patients Prevalence of Below-the-Ankle Disease in the Literature	16.
Table 7 Conclusion Percent Prevalence of Below-the-Ankle Disease in Critical Limb Ischemia Population by Disease Severity	17.
Table 8 2020-2040 Critical Limb Ischemia Rutherford 4-6 Number of Patients and Limbs	18.
Table 9 2020-2040 Critical Limb Ischemia Rutherford 5-6 Number of Patients and Limbs	18.
Table 10 2020-2040 Below-the-Ankle Disease in the Critical Limb Ischemia Population (R 4-6) Number of Patients and Limbs	19.
Table 11 2020-2040 Below-the-Ankle Disease in the Critical Limb Ischemia Population (R 5-6) Number of Patients and Limbs	19.

Table 12	20.
Mean Diameter of Selected Pedal Arteries	
Table 13	21.
Below-the-Ankle Disease	
Prevalence of Lesion Types and Characteristics by Artery	
Table 14	24.
Percent Prevalence of Pedal Medial Artery Calcification in	
Patients with Below-the-Ankle Disease in the Literature Review	
Table 15	25.
Percent Prevalence of Mild, Moderate and Severe Pedal Medial Artery Calcification in	
Patients with Below-the-Ankle Disease in the Literature Review	
Table 16	25.
Conclusion	
Percent Prevalence of Pedal Medial Artery Calcification in	
Below-the-Ankle Disease Patients	
Table 17	26.
2020-2040	
Below-the-Ankle Arteries with Medial Artery Calcification in Rutherford 4-6 Population	
Number of Patients and Limbs	
Table 18	26.
2020-2040	
Below-the-Ankle Arteries with Medial Artery Calcification in Rutherford 5-6 Population	
Number of Patients and Limbs	
Table 19	27.
2020-2040	
Below-the-Ankle Arteries with Moderate and Severe Medial Artery Calcification	
in Rutherford 4-6 Population	
Number of Patients and Limbs	
Table 20	28.
2020-2040	
Below-the-Ankle Arteries with Moderate and Severe Pedal Medial Artery Calcification	
in Rutherford 5-6 Population	
Number of Patients and Limbs	
Table 21	29.
2020-2040	
Below-the-Ankle Arteries with Thrombus in Rutherford 4-6 Population	
Number of Patients and Limbs	
Table 22	29.
2020-2040	
Below-the-Ankle Arteries with Thrombus in Rutherford 5-6 Population	
Number of Patients and Limbs	

Table 23 Selected Outcomes of Performing Below-the-Ankle Angioplasty Alone or With Above-the-Ankle Angioplasty in Critical Limb Ischemia Patients	34.
Table 24 Conclusion Percent of U.S. Critical Limb Ischemia Patients Undergoing Below-the-Ankle Revascularization	36.
Table 25 2020-2040 Below-the-Ankle Disease in Rutherford 5-6 Population Current Number of Patients and Limbs Revascularized	36.
Table 26 2020-2040 Below-the-Ankle Disease in Rutherford 5-6 Population Projected Number of Patients and Limbs Revascularized	37.
Table 27 Angioplasty Balloons Employed in Pedal Artery Endovascular Revascularization	38.
Table 28 Guidewires Employed in Pedal Artery Endovascular Revascularization	38.
Table 29 Support Catheters or Balloon Catheters Used as Support Catheters Employed in Pedal Artery Endovascular Revascularization	39.
Table 30 Low Profile Atherectomy Devices Employed in Pedal Artery Revascularization	40.
